

EDUCATORS FEAST

Closing Meeting of Teachers' Association Addressed by

FORMER SUPT. C. J. POTTS

And Prof. J. A. Myers—An Epoch in the History of Broad Top Schools—Mr. Lauder Prophecies.

The closing sessions of the Broad Top Educational Association, held last Friday and Saturday, were without doubt the most unique and pleasing that it has ever been our privilege to attend.

We believe we have as fine a corps of teachers as can be found anywhere in the county, and they are doing splendid work; but we are satisfied that still better work can be done if they could, in some way, divest themselves of a certain amount of stiffness and timidity. Just how to bring this about has been a problem, but we believe we found the solution when your humble servant conceived the idea of a Teachers' Banquet instead of closing our schools in the usual way.

We were undecided at first as to how the idea would be received by our teachers, but after consulting a number of teachers and directors, we were convinced that the idea would be favorably received and supported, and we accordingly proceeded to arrange for the event.

Much credit for the success of the affair is due to Professors Edwards and Aldstadt for their sensible counsel and helpful suggestions in arranging a program. Another important factor in making the banquet a success was a committee of ladies of Defiance, who had in charge the arranging of the supper.

The "good time" commenced at Riddlesburg Friday evening with a concert by the Juniata College Glee and Concert Club. The "boys" were in fine condition and gave an interesting entertainment to a large and appreciative audience. All the numbers were enjoyed, but we wish to make special mention of Mr. Beery's vocal solos which were exceptionally well rendered. This was the closing number of our lecture and entertainment course.

At 2 o'clock Saturday afternoon the association met in the Defiance high school building where we listened to two addresses and to a number of selections of music specially prepared for the occasion.

After devotional exercises and disposing of miscellaneous business, Professor Potts was called upon to address the association. He carried us back eighteen years, and step by step brought us down to the present time, showing the marvelous transformation through which the schools of Broad Top township have passed during those eighteen years. He attributes the changes to two sources: one is the progressive ideas and the broad-minded spirit of her school directors, and the other is local supervision, which office was created in 1896, and which has been continued ever since with the exception of one year, the writer having filled the office during eight of these years, and is now filling the position for the third time. In his review of the growth and development of the schools of Broad Top, Professor Potts brought to our attention many things which some persons who have lived here during this entire period had never noticed.

It certainly was an interesting and encouraging address for those who are and have been laboring for the betterment of the schools of Broad Top.

We were next favored with a violin solo by Master Oscar Davis of Coal-dale, after which Prof. J. Allen Myers was introduced to the audience, and in his usual earnest and forceful manner he entertained as well as instructed his hearers on the theme that both organic and inorganic matter develop naturally if not interfered with, according to the laws which govern them; and by analogy he showed that in order that the highest development possible may be reached, it is necessary that every obstacle be removed which would interfere with the natural development of the powers of the mind.

After Professor Myers' address, Misses Maud Cypher and Ruth Nicholson, two high school students, favored.

A HORRIBLE ACCIDENT

Blaine Carpenter of Buffalo Mills Killed at Mann's Choice.

Sunday morning, April 5, the body of Blaine Carpenter, a well-known young man of Buffalo Mills, was found about two hundred yards below the Mann's Choice depot, with his skull crushed and other injuries inflicted. He boarded a freight Saturday evening to pay a visit to friends at Mann's Choice, arriving there shortly after 7 o'clock and, it is supposed, in attempting to alight from the train he was struck and almost instantly killed. His pocket-book, containing over \$60, was found a short distance away.

The young man was a son of W. H. and Josephine (Hurley) Carpenter, of Buffalo Mills, and was born at Bard on October 27, 1883, being, at the time of his death, 24 years, five months and seven days of age. He was an honest, upright young fellow, of excellent reputation, and leaves many warm friends who will learn of his sad death with much regret. He was well-known in Bedford, having attended social functions and was a frequent guest of his aunt, Mrs. Will Hietzel, at this place.

His parents and two sisters, Misses Annie and Ida, at home, survive; they have the sympathy of all in their great loss. The body was taken to Miller's undertaking establishment and prepared for burial, and Sunday afternoon was conveyed to the home of his parents, where the funeral took place at 1:30 o'clock Monday afternoon, the services being conducted by Rev. King of Schellsburg, assisted by Rev. Warlick. Interment at Sulphur Springs.

George W. Barkley

George W. Barkley, one of the foremost citizens of Rainsburg, died at his home there on Saturday, April 4, of paralysis, aged 67 years, six months and nine days. Mr. Barkley was born near St. Clairsville where he grew up and learned the blacksmith trade. On August 27, 1862, he entered the service of his country, becoming a member of Co. B, 138th Pa. Vol., and passed through 23 engagements without receiving a scar. He was one of seven brothers who served in the Civil War, all of whom are now dead.

Mr. Barkley opened a blacksmith shop in Charlesville in 1867 and some time later moved to Rainsburg where he worked at his trade until a couple years ago when ill health compelled him to retire. He was stricken with paralysis on March 27 and from that time until his death he was unable to move or speak.

Mr. Barkley was twice married, first to Martha J. Hartsack who died in 1871, and later to Sarah Jane Ingard who died last August. He is survived by five children—Miss Dora and Bert, at home; John and Reese, of San Francisco, and Luther of North Bend, Wash.

Mr. Barkley was a charter member of Rainsburg lodge of Odd Fellows, for which organization he served as Treasurer consecutively since 1872. He was also a charter member of W. C. No. 412, P. O. S. of A. He took an active interest in the schools of Rainsburg and in the affairs of the town in general and served many years on the council and on the school board. He was a Christian gentleman of rare type and was a pillar in the Lutheran church of Rainsburg.

The funeral service was conducted at his late residence by his pastor, Rev. E. H. Jones, on Monday and interment was made in the cemetery at the Lutheran church. The service was attended by the Odd Fellows, the Sons of America and the veterans of the community.

Mrs. Ellen Garber

Mrs. Ellen Schell, wife of Col. Michael C. Garber, died at her home in Madison, Ind., March 28, 1908, of grip, aged 90 years, 11 months and eight days.

Schell of Bedford, Abraham E. Schell of Schellsburg and Mrs. Elmina Ankeny of Minneapolis, Minn. The average age of the four is 85½ years.

Her husband, who died many years ago, was, at the time of his marriage, a resident of Hollidaysburg, being interested there in a store and a foundry. He was a member of the firm of Garber and O'Connor which firm owned a line of freight boats, plying on the Pennsylvania canal between Columbia and Pittsburg. He also built a section of the Chesapeake and Ohio Canal. Later he moved to Madison where he published the daily and weekly Courier, which, since his death has been published by his two sons. During the Civil War he was Quartermaster with the rank of Captain. He was breveted Major for gallantry at the battle of Mill Creek. He was later made Colonel by resolution introduced by Hon. "FROM OLIVET TO CALVARY"

A Sacred Cantata to Be Rendered in Reformed Church April 24.

The Sacred Cantata, "From Olivet to Calvary," which will be rendered in St. John's Reformed church next Tuesday evening at 7:30 o'clock, will afford to the music lovers of Bedford a rare evening of joy. To say simply that the music is sublime is to do it an injustice. He who has one mile of music in his soul will be held well-bound from reaching to end.

As indicated by the subject, the progression is wonderful—first, Christ is pictured as descending the Mount of Olives on His triumphal entry into Jerusalem. Upon His path are strown the garments of those who, with their hosannas, hail Him as their King; next we see Him wending His weary way to the dark Gethsemane; and now, no joyous multitude was there, no garments at His feet were thrown. To Gethsemane come the multitude, with swords and staves and torches. The Savior is led away to the judgment hall.

Here are enacted all the scenes of that dark hour; the plea which Pilate made for Jesus' life, the rabbi cry of "Crucify Him, Crucify Him!" Even the instruments seem to speak the words and one quite forgets where one is. From the judgment hall we have the march to Calvary—the beauty and solemnity of which must be felt in order to be appreciated. As with the mind we picture the Christ, hanging "silent in death upon the accursed tree," and in our souls we "too must say

"Hush, sound of earth,
Sink, sound of mortal sin;
On Calvary's cross
Let man's work be done."

It is to be sincerely hoped that only a limited number of people can be accommodated in St. John's church for the reason of the season. It is hoped, however, that the hope of those who cannot enjoy such music, the singing of the hymns, the recitation of the Gospels, the reading of the cantata, and the beautiful objects for Easter Monday, will be secured by the singing of the cantata on Sunday morning, April 13. It is hoped that those who made application for tickets and found the supply exhausted, will be able to get the tickets to make application for tickets on Monday.

WITH EVANS' FLEET

Interesting Incidents of South American Trip Told by

PRIVATE WM. O. BRUNER

Former Bedford Boy Visits Points in Chile and Peru—Bull Fight in Honor of the Fleet.

Magdalena Bay, Mexico, March 24, 1908.

Editor Bedford Gazette:—My last letter to you left us getting under way for Puntas Aires, from Rio de Janeiro, which we left on January 22 and had an uneventful trip to Possession Bay, arriving there January 31 and dropped anchor at 6:35 p. m. At 5 a. m. we raised the anchor for a run into what we all thought a very small village and never expected any liberty at all, but we were surprised at seeing a good sized town and beautiful scenery. We had liberty there and coaled ship, leaving on February 7, going through the Straits of Magellan and seeing more than one would imagine. We were compelled to break out our overcoats and capes, also heavy clothing. The wind was something terrible, and here and there you would see a beautiful glacier moving slowly down the high peaks which were heavily snow-capped. The ice was very blue, a different blue from our ice at home; once at a distance we saw an iceberg but it was so far at sea we could not enjoy it. Natives were seen once in a while throughout our day's sights. The ships went through one by one, making quite a number of turns, and some places we were that near to land that I could throw a stone ashore. We kept our eyes open for some kind of animals but not one did we see, nothing but large birds.

We pulled through against the current which was so strong that the ship's engines were running at 12 knots and we were only making three or four. We steamed out at about 3 p. m. and getting out of sight of land we were all much better pleased, as the farther away from land I am the safer I feel aboard a battle-wagon; to tell the truth, I feel kind of out of place on land for when a person rides the seas, whether rough or calm, for about four months he hardly knows how to act ashore, and you have what is known as the sea-going walk, one foot stepping on the other, for in a storm at sea you can get all over the deck and stand and wonder how in the world you ever navigated to where you are. I was sick but once from rough sea and that was from Boston to Hampton Roads, in a heavy storm which drove us away off our course.

Before we reached Peru we stopped at Valparaiso, Chile; you could hardly call it a stop as we went into the harbor, saluted the President and had a good look at the city, coming out to sea again and arriving in Callao, Peru, on February 20. While there we had a royal time. I went ashore, and took a car to Lima, a run of seven miles. The street cars are made by Stephenson of Philadelphia, and it seemed like home to get in one of them. We went to a camera store to buy some supplies for my camera and I had a picnic making the clerks understand our language. My camera is 4x5 and I asked for plates that size; he took me behind the counter and said "pick," well, I picked but instead of it being marked 4x5, the size it was, it was marked 8x12.

After I got through buying my souvenirs I started for the bull fight given in honor of the fleet. I will say here that I will never take in another—it is terrible to see. The arena was packed with sailors and marines, also officers. The Lima band played some very pretty music and then the parade started—men on horseback, then the bull fighters' at-

A GOOD REASON

Bedford People Can Tell You Why It is So.

Doan's Kidney Pills cure the cause of disease, and that is why the cures are always lasting. This remedy strengthens and tones up the kidneys, helping them to drive out of the body the liquid poisons that cause backache, headache and distressing kidney and urinary complaints. Bedford people testify to permanent cures.

Mrs. D. O. Smith, living on W. Pitt St., Bedford, Pa., says: "My daughter has suffered from kidney trouble for a long time. She had severe pains in her back and loins, she suffered from frequent chills and was often very dizzy. She finally procured a box of Doan's Kidney Pills at Irvine's drug store, and began using them. They proved to be just the remedy she required and they seemed to go at once to the seat of the trouble. She is today much better in every way and gives Doan's Kidney Pills the credit."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

tendants in costly costumes, making bows to the audience, then the bugler who gave one blast on the bugle. A man rode to the centre of the ring on a pony, then all the men on foot went into little boxes built around the sides for protection; two blasts were sounded and the doors opened, a very large bull came tearing out and the man on horseback kept teasing it with a large red cloak; herodeoff and the men afoot came, each with two pointed sticks which they would run into the neck of the bull. This was kept up until he pawed the earth and snorted, then came the fighter with a sword, also a red cloak on his left arm; the bull would chase him and, making a quick turn, he would stab the bull between the shoulders. The first bull hooked a man, throwing him considerable distance, and he was carried from the ring. The man stuck the bull in a vital spot and it sank on its front knees and then keeled over dead; the bugle sounded and a two-wheeled truck pulled by four ponies hooked a chain around the neck of the bull and went at full speed off the field; then the people cheered at the top of their voices, and the fighter came around inside the ring making bows, and the people threw him money, rings, etc. I noticed a few natives throwing their hats and coats down to him; they give anything they have to show their appreciation. They repeated this until six bulls were killed, but the sixth bull and the man died together, the bull having hooked him through the neck. I made a few pictures of the fights but only one was any good, it is a snap-shot of the killing of both.

Well, we went out of there and down to the station, where we caught a train for Callao (the seats run the length of the car instead of on the sides) arriving aboard our ship at 11 p. m. We left here on February 27 and arrived at Magdalena Bay two days ahead of schedule time, instead of arriving March 14 we came in early on the 12th. Here there is nothing but a 27-house village and the only place we can go is on a fishing party, land on the beach and gather shells; have a very nice collection of shells which I gathered here. Nearly all the ships are done firing but us and we were to go on the range this morning at daylight but a young man aboard is dying of consumption and it was signalled from Admiral Evans to delay going on range until the Hospital Boat takes the patient away; the boat is due here today and last night Father Gleason came over from the flag-ship and administered the last rites of the church to him, but this morning every one was glad to learn his condition is much better and as it stands now we will not fire before Wednesday. My station is on top of the turret while the 12 in. are firing, and shellman on a 3 lb. gun when marines fire; we fire all the 3 inch and 3 lb. guns.

Well, I must bring this letter to a close as we must drill on our respective guns so as to make a showing at range. I beg to remain,

Yours sincerely,
Private William O. Bruner,

HOUSEHOLD NOTES

Saucepans should be as flat and broad as possible, so that no heat may be wasted.

Place tea grounds around the roots of ferns and be rewarded with a rich growth of leaves.

If canned pears have a flat taste, and most pears do, they will be improved by adding stick cinnamon to them while cooking.

The fine ash found over the oven of a cook stove in which wood is used furnishes (when used dry) a silver polish equal to any on the market.

When the brass tops on kerosene lamps get loose; try melted alum for holding them in place. Alum must be melted over an intense heat, and it is excellent for mending purposes.

Cereals are seldom overcooked, but rather undercooked. Thus, always allow plenty of time in preparing cereals.

Remember in removing stains that all alkali stains can be removed by a weak solution of citric acid, while acid stains can be removed with ammonia.

Always have tissue paper in the kitchen for by cutting in large pieces and dipping into the soup all the grease will be removed.

Prevent scorching ironing sheet by tacking a piece of asbestos paper about twelve inches square on end of board where the iron is set. The paper will not burn and it saves the sheet.

Buy a 10-cent sheet of asbestos paper at the plumber's and cut right size to fit the oven, for covering bread or cakes when baking, to prevent burning.

When dissolved, soap powders and bar soap seem to do more work than when used in their ordinary state.

When baking apples baste them often with their own juice. This is as essential for good results as to baste a roast.

He Got What He Needed

"Nine years ago it looked as if my time had come," says Mr. C. Farthing of Mill Creek, Ind. Ter. "I was so run down that life hung on a very slender thread. It was then my druggist recommended Electric Bitters. I bought a bottle and I got what I needed—strength. I had one foot in the grave, but Electric Bitters put it back on the turf again, and I've been well ever since." Sold under guarantee at all drug stores. 50c.

Watering the Horse

A successful horse raiser says: "I count the swallows my horses take while drinking a painful. Some take larger swallows than others, but I know them all. If I am out on the road and come to a trough, I get out and count while my horse drinks, so that he will not take too much at once. I give water often, and so keep my horses free from bowel trouble caused by overdrinking."

WHAT CURES INDIGESTION

To Be Cured, Weakness of Stomach Muscles Must Be Overcome.

The chief cause of indigestion is weakness of the stomach muscles and lack of gastric juices.

By taking Mi-o-na stomach tablets the stomach muscles will be stimulated and strengthened and the flow of gastric juices will be increased. Mi-o-na does not do the stomach's work; it makes the stomach strong enough to do it, and in this way completely cures the weakness so there is no further need of medicine.

No matter how severe a case of stomach trouble you have, Mi-o-na will cure it by strengthening your digestive system so that both stomach and bowels do their work as they should.

F. W. Jordan sells Mi-o-na in 50-cent boxes and guarantees to refund the money if the remedy does not cure. April 10-2t.

To have perfect health we must have perfect digestion, and it is very important not to permit of any delay the moment the stomach feels out of order. Take something at once that you know will promptly and unfailingly assist digestion. There is nothing better than Kodol for dyspepsia, indigestion, sour stomach, belching of gas and nervous headache. Kodol is a natural digestant, and will digest what you eat. Sold by Ed. D. Heckerman.

A COMMON MISTAKE

Many women mistake kidney and bladder troubles for some irregularity peculiar to the sex. Foley's Kidney Remedy corrects irregularities and makes women well. Miss Carrie Harden, Bowling Green, Ky., writes: "I suffered much pain from kidney and bladder trouble until I started to use Foley's Kidney Remedy. The first bottle gave me great relief, and after taking the second bottle I was entirely well." Ed. D. Heckerman.

SIMPLE RECIPE

Prepare This Simple Recipe at Home and Try It.

PLAIN DIRECTIONS

Druggists Here in Town Say They Can Supply the Ingredients or Make Up the Mixture.

Get from any prescription pharmacist the following:
Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces.

Shake well in a bottle and take a teaspoonful dose after each meal and at bedtime.

The above is considered by an eminent authority, who writes in a New York daily paper, as the finest prescription ever written to relieve Backache, Kidney Trouble, Weak Bladder and all forms of Urinary difficulties. This mixture acts promptly on the eliminative tissues of the kidneys, enabling them to filter and strain the uric acid and other waste matter from the blood which causes Rheumatism.

Some persons who suffer with the affections may not feel inclined to place much confidence in this simple mixture, yet those who have tried it say the results are simply surprising, the relief being effected without the slightest injury to the stomach or other organs.

Mix some and give it a trial. It certainly comes highly recommended. It is the prescription of an eminent authority, whose entire reputation, it is said, was established by it.

A druggist here at home when asked stated that he could either supply the ingredients or mix the prescription for our readers, also recommends it as harmless.

Two Magazines Merged

Discovery, a magazine of popular science which has not found adequate support, has been merged with The Popular Science Monthly. The editor of this journal remarks:

"Perhaps some subscribers to Discovery who receive The Popular Science Monthly in its place will think that the Monthly is not entitled to use the adjective 'popular.' The publishers receive frequent postcards asking for a sample 'copy.' This may be the better way to spell the word, but those unsophisticated by conventional orthography would probably not find the Monthly suited to their purpose. It is popular in the sense that it is not special or technical, not in the sense that it makes an appeal to all the people. We need a journal such as The Popular Science Monthly intended for those having a cultivated and intelligent interest in the advancement of science, but we also need a magazine for the larger class who visit museums and read the daily papers. Provision is now made for invention and technological science, but we should welcome the establishment and support of a magazine devoted to natural history and the simpler aspects of physical science."

IT SAVED MY LIFE—WRITES ECZEMA PATIENT

Bed-Ridden Sufferer Completely Cured by Use of D. D. D. External Wash.

One of the most remarkable Eczema cures recently credited to the well known D. D. D. Prescription has just been recorded in Chicago.

Mrs. E. Hegg, 1550 West Madison street, under date of December 9, 1907, writes as follows:

"I suffered three years with Weeping Eczema. It started with a little spot on my knees and spread fast over my whole body. I spent hundreds of dollars and went to every good doctor I heard of, but kept getting worse. Nothing would stop the awful itch and burning."

"I had to stay in bed from the middle of May to the middle of July. Then I tried D. D. D. Prescription. This is the 9th of December and I am entirely free from the terrible disease. D. D. D. saved my life."

"When I began this treatment, people were afraid of me I looked so terrible. My husband was the only one who would take care of me. D. D. D. stopped the itch at once so I could sleep, which I had not done before. Then I began to get better fast and now my skin is clear and white, not a spot anywhere."

Just a few drops of D. D. D. Prescription applied to the skin brings relief—nothing to swallow or drink. We vouch for D. D. D. Prescription, also the cleansing D. D. D. Soap. F. W. Jordan, Bedford, Pa. Get a bottle today if you have any skin disease. Begin your cure at once.

Death Was On His Heels

He says: "An attack of pneumonia left me so weak and with such a fearful cough that my friends declared consumption had me, and death was on my heels. Then I was persuaded to try Dr. King's New Discovery. It helped me immediately, and after taking two and a half bottles I was a well man again. I found out that New Discovery is the best remedy for coughs and lung disease in all the world." Sold under guarantee at all drug stores. 50c and \$1.00. Trial bottle free.

THE Princess Virginia

By C. N. and A. M. WILLIAMSON,
Authors of "The Lightning Conductor," "Rosemary in Search of a Father," Etc.

COPYRIGHT, 1907, BY McCLURE, PHILLIPS & CO.

(Continued From Last Week.)

CHAPTER SEVEN

It is those in the thick of battle who can afterward tell least about it, and to the princess those five minutes—moments the most tremendous, the most vital of her life—were after ward in memory like a dream.

She had seen that a man was ghastly pale; she had caught a gleam of fear in his eye; she had felt a tigerish quiver run through his frame as the crowd pressed him against her. Instinct—and love—had told her the rest and taught her how to act.

Vaguely she recalled later that she had thrown herself forward and struck up the knife. An impression of that knife as the light gleamed on it alone was clear. Sickness, she had thought of the dull sound it would make in falling, of the blood that would spout from a rent in the white coat among the jeweled orders. She had thought, as one thinks in dying, of existence in a world empty of Leopold, and she had known that unless he could be saved her one wish was to go out of the world with him.

More than this she had not thought or known. What she did was done scarcely by her own volition, and she seemed to wake with a start at last, to hear herself sobbing and to feel the throb, throb, of a hot pain in her arm.

A hundred hands—not quick enough to save, yet quick enough to follow the lead given by her—had fought to seize the man in gray and stop a second blow. They had borne him away, while, as for Virginia, her work done, she forgot everything and every one but Leopold.

Reviving, she had heard him speak to the crowd and told herself dreamily that were she dying his voice could bring her back if he called. She even listened to each word that rang out like a cathedral bell above the babel. Still he held her, and when the cheers came she scarcely understood that they were for her as well as for Leopold, the emperor. Afterward, the necessity for public action over, he bent his head close enough to whisper, "Thank you," and then for Virginia every syllable was clear.

"You are the bravest woman alive," he said. "I had to keep them from killing the ruffian, but now I can speak to you alone. I thank you for what you did with my whole heart, and I pray heaven you're not seriously hurt."

"No, not hurt and very happy," the princess answered, hardly knowing what she said. She felt like a soul released from its body, floating in blue ether. What could it matter if that body ached or bled? Leopold was safe, and she had saved him.

He pointed to her sleeve. "The knife struck you. Your arm's bleeding, and the wound must be seen immediately by my own surgeon. Would that I could go with you myself, but duty keeps me here. You understand that. Baron von Lyndal and his wife will at once take you home, wherever you may be staying. They?"

"But I would rather stop and see the rest," said Virginia. "I'm quite well now, not even weak, and I can go down to my friend."

"If you're able to stop, it must be here with me," answered Leopold. "After the service you have done for me and for the country it is your place."

The ladies of the court, who, with their husbands, had been waiting to congratulate Leopold, crowded round the girl as the emperor turned to them with a look and gesture of invitation. A seat was given her, and the arm in its blood stained sleeve was hastily bound up. She was the heroine of the day, dividing honors with its hero.

There was scarcely a grande dame among the brilliant assemblage on the emperor's platform to whom Lady Mowbray and her daughter had not a letter of introduction from their invaluable friend. But no one knew at this moment of any title to their recognition possessed by the girl other than the right she had earned by her splendid deed. All smiled on her through grateful tears, though there were some who would have given their ten fingers to have stepped into her place.

Thus Virginia sat through the ceremonies, careless that thousands of eyes were on her face, thinking only of one pair of eyes, which spared a glance for her now and then, hardly seeing the statue of Rhaetia, whose glorious marble womanhood unveiled roused a storm of enthusiasm from the crowd, hearing only the short, stirring speech made by Leopold.

When everything was over and the people had no excuse to linger save to see the emperor ride away and the great personages disperse, Leopold turned again to Virginia.

All the world was listening, of course; all the world was watching, too, and, no matter what his inclination might have been, his words could be but few.

Once more he thanked and praised

her for her courage, her presence of mind; thanked her for remaining as it she had been granting a favor to him and asked her where she was staying in Kronburg, as he promised himself the honor of sending to inquire for her health that evening.

His desire would be to call at once in person, he added; but, owing to the programme arranged for this day and several days to follow, not only each hour, but each moment, would be officially occupied. These birthday festivities were troublesome, but duty must be done, and then, Leopold repeated, when he had Miss Mowbray's name and address, the court surgeon and physician would be commanded to attend upon her without delay.

With these words and a chivalrous courtesy at parting, the emperor was gone. Baron von Lyndal, grand master of ceremonies, and his baroness having been told off to take care of Miss Mowbray.

In another mood it would have pricked Virginia's sense of humor to see Baroness von Lyndal's almost shocked surprise at discovering her to be the daughter of that Lady Mowbray whom she was asked to meet. Luckily all the letters of introduction had reached their destinations, it merely remaining, according to the etiquette in Rhaetia, for Lady Mowbray to announce her arrival in Kronburg by sending cards to the recipients. But Virginia had no heart for laughter now.

She had been on the point of forgetting until reminded by a dig from the spur of necessity that she was only a masquerader acting her borrowed part in a pageant. For the first time since she had hopefully taken it up that part became detestable. She would have given almost anything to throw it off and be herself, for nothing less than clear sincerity seemed worthy of this day and the event which crowned it.

Nevertheless, in the vulgar language of proverb which no well brought up princess should ever stoop to use, she had made her own bed, and she must lie in it. It would not do for her suddenly to give out to the world of Kronburg that she was not, after all, Miss Mowbray, but Princess Virginia of Baumburg-Drippe. That would not be fair to the grand duchess, who had yielded to her wishes, nor fair to her own plans. Above all, it would not be fair to the emperor, handicapped as he now was by a debt of gratitude. No; Miss Mowbray she was, and Miss Mowbray she must for the present remain.

Naturally the grand duchess fainted when her daughter was brought back

The arm in its blood stained sleeve was hastily bound up.

with ominous red stains upon the gray background of her traveling dress. But the wound was neither deep nor dangerous. The court surgeon was as consoling as he was complimentary, and by the time that messengers from the palace had arrived with inquiries from the emperor and invitations to the emperor's ball the mother of the heroine could dispense with her sal volatile.

She had fortunately much to think of. There was the important question of dress for the ball tomorrow night; there was the still more pressing question of the newspapers, which must not be allowed to publish the borrowed name of Mowbray lest complications should arise, and there were the questions to be asked of Virginia: How had she felt? How had she acted? How had the emperor looked, and what had the emperor said?

If it had been natural for the grand duchess to faint it was equally natural that she should not faint twice. She began to believe, after all, that Providence smiled upon Virginia and her adventure, and she wondered whether the princess' white satin embroidered with seed pearls or the silver spangled blue tulle would be more becoming to wear to the ball.

Next day the Rhaetian newspapers devoted columns to the attack upon the emperor by an anarchist from a certain province (once Italian), who had disguised himself as an official in the employ of the burgomaster. There were long paragraphs in praise of the lady who, with marvelous courage and presence of mind, had sprung between the emperor and the assassin, receiving

ing on the arm with which she had shielded Unser Leo a glancing blow from the weapon aimed at the imperial breast; but, thanks to a few earnestly imploring words written by Lady Mowbray to Baron von Lyndal, commands impressed upon the landlord of the hotel and the fact that Rhaetian editors are not as modern as Americans in their methods, the lady was not named. She was a foreigner and a stranger to the capital of Rhaetia. She was, according to the papers, "as yet unknown."

Weddings and Rice

At a wedding breakfast a pretty bridesmaid was heard to tell the true reason for rice being used at weddings. It was once believed that if on their wedding journey a newly wedded couple saw a flock of doves it would mean a long life of peace and happiness to them. A bridal party in passing so frightened a flock of these timid birds that they flew away in great alarm, and so to avert the evil omen that flight signified for the newly married couple rice was thrown in great quantities to lure the birds back to the place from which they had flown. This plan was so successful that the wedded pair went on their way rejoicing and lived ever afterward a happy and prosperous life. Since then rice has been used as a symbol of good luck, peace and happiness at weddings.

Kodol For Dyspepsia has helped thousands of people who have had stomach trouble. This is what one man says of it: "E. C. DeWitt & Co., Chicago, Ill.—Gentlemen—In 1897 I had a disease of the stomach and bowels. I could not digest anything I ate and in the spring of 1902 I bought a bottle of Kodol and the benefit I received from that bottle all the gold in Georgia could not buy. I still use a little occasionally as I find it a fine blood purifier and a good tonic. May you live long and prosper. Yours very truly, C. N. Cornell, Roding, Ga., Aug. 27, 1906." Sold by Ed. D. Heckerman.

Jefferson Davis' Living Daughter

One child still survives each of the war presidents, Jefferson Davis of the Confederacy and Abraham Lincoln of the Union. Mrs. J. Addison Hayes of Colorado Springs, wife of a banker, is a daughter of Jefferson Davis and the sole remaining member of the Confederate leader's family. Mr. Davis died in 1889 and Mrs. Davis in 1906. Their daughter Varina, more familiarly known as Winnie and celebrated as "the Daughter of the Confederacy," died in 1898. All are buried in Richmond, Va.

Kennedy's Laxative Cough Syrup—the cough syrup that tastes nearly as good as maple sugar and which children like so well to take. Unlike nearly all other cough remedies, it does not constipate, but on the other hand acts promptly yet gently on the bowels, through which the cold is forced out of the system, and at the same time it allays inflammation. Always use Kennedy's Laxative Cough Syrup. Sold by Ed. D. Heckerman.

Cure for Croup

A recommended rous cure for chickens is to take two parts sweet oil, one part gum camphor, one part turpentine. To each ounce of this mixture add ten grains menthol and one teaspoonful listerine. Take a small drop syringe or oil can and put this remedy into the mouth and in the nostrils twice a day.

AN INSIDIOUS DANGER

One of the worst features of kidney trouble is that it is an insidious disease and before the victim realizes his danger he may have a fatal malady. Take Foley's Kidney Remedy at the first sign of trouble as it corrects irregularities and prevents Bright's disease and diabetes. Ed. D. Heckerman.

Street Hat

A neat street hat has a plain round brim with a heavy fold of velvet stitched on the outer edge to protect the delicate color. This brim is banded with two colors of velvet and a jaunty wing is fastened at the front, slightly curved to the left side and fastened in a pretty manner. Other sailor hats show immense rosettes very flat, with a central decoration of a fine buckle.

IMPORTANT DECISION

It is important that you should decide to take only Foley's Honey and Tar when you have a cough or cold as it will cure the most obstinate racking cough and expel the cold from your system. Foley's Honey and Tar contains no harmful drugs. Insist upon having it. Ed. D. Heckerman.

AFTER TEN YEARS

Mr. G. L. Stephenson, of Peterborough, Ont., says: "For over ten years I suffered constantly with Piles, first itching, then bleeding; pain almost unbearable; life a burden. Tried everything in vain till I used Dr. Lehnhardt's Hem-Roid."

"I had taken but a few doses when I began to notice an improvement and now, after using three boxes, I am glad to say I am completely cured. My general health has also greatly improved. It gives me great pleasure to recommend Hem-Roid to all sufferers with Piles, and I feel convinced that what it has done for me it will surely do for them."

The Heart Can't Stand Rheumatic Acid Poisoning

To Free and Correct the Blood a Uric-O Treatment is Advised.

There is great danger in those sharp, shooting pains through the chest around the region of the heart. It means that poisonous uric and rheumatic acid are there ready to spring and grip tightly the muscles controlling the heart's action. Don't neglect these warnings they are the danger signals Nature flashes to you for help. You must neutralize and drive these dangerous poisons from the system, or sooner or later they will overcome you.

The only true way to cure Rheumatism is to get at it from the inside with Uric-O. It acts with marvelous swiftness upon the muscles, kidneys and blood. Clears out the sand-like deposits in the muscles, forces the kidneys to perform those duties for which they were designed and neutralizes the acid within the blood.

Your physician will admit that this is the only true way to cure Rheumatism permanently, and should know that Uric-O is the one remedy that will do it successfully and permanently. Uric-O is a liquid taken internally, 3 times daily, and does not contain any morphine, opium or other so-called "pain deadeners." It is good for Rheumatism in any form. Sciatica, Muscular, Inflammatory and Articular Rheumatism all yield readily to Uric-O.

It sells for 75c and \$1.00 the bottle or you can obtain a trial bottle free by writing to The Smith Drug Co., 481 Smith Bldg., Syracuse, N. Y. Uric-O is sold and personally recommended in Bedford by F. W. Jordan.

SOOTHES AND HEALS

Hyomei Gives Quick Relief in Catarrh Troubles.

Be wise in time and use Hyomei at the first warning of catarrhal trouble. Do not let the disease extend through the delicate mucous membrane, gradually going from the nose to the throat, thence into the bronchial tubes and then downward until the lungs are reached and you are in danger of consumption.

Hyomei is so uniformly successful in curing this common and dangerous disease that F. W. Jordan takes all the risk and agrees absolutely to refund the money if anyone uses Hyomei and does not get relief.

Begin the use of Hyomei today, and you will soon find that the offensive breath, droppings into the throat, discharge from the nose and all other catarrhal symptoms are cured. The complete outfit costs but \$1.00, and F. W. Jordan stands ready to refund the money if it does not cure catarrh.

The Future

Out beyond us there is lying a year filled with fair tomorrows, In the silent past are dying swarms of little, cast-off sorrows;

Out beyond us there are glowing heights on which our flags may fly;

In the past the streams are flowing where we halted, you and I.

Out beyond us Hope is calling to the strong and to the fearless,

In the past a veil is falling on the valleys that were cheerless;

Out beyond us there are spreading scenes where unclaimed glories lie;

Why should we sit weakly dreading future bruises, you and I?

The Sheepfold

There is no stock on the farm that should be so generously fed as the lambs.

A variety of feed is necessary for the most profitable growth.

If a lot of fodder is thrown on the ground, and the sheep run over it once or twice, they will eat no more of it, even though they are suffering from hunger.

If put in quantities in racks, and they have breathed on it for a short time they will leave the racks and bleat for food.

Feed little and often, and any hay that is left in the racks should be cleaned out before more is put in.—Indianapolis News.

Carlyle's "Grand Evening"

Who that has wandered through the Carlyle house Embankment can forget it—the story which the old Scotch keeper rehearses so punctiliously day by day, and yet ever with fresh gusto? says a writer in Harper's Weekly. "In this room it was, sir, that Mr. Carlyle and Mr. Tennyson spent a long evening, each smoking his pipe and neither of them speakin' a word. And after three hours when Mr. Tennyson rose to go, Mr. Carlyle said to him: 'It's a grand evenin' we've spent, Alfred, a grand evenin'.' And Mr. Tennyson he just said, too, 'A grand evenin', and went out.'"

Population of the World

The population of the world is computed by a foreign contemporary as one and a half billions, the mean density of the population being about ten inhabitants per square kilometer. Asia leads the rest of the world with from 820,000,000 to 850,000,000. Europe is second with 400,000,000, followed by America, 151,000,000, and Africa, from 145,000,000 to 160,000,000. Oceania and Australia have a population of about 7,000,000.

TAKING REFUGE

The do-nothing body that has been designated in the Constitution of the United States as the House of Representatives would enjoy taking refuge in delay on the currency question by appointing a Currency Commission. It is debatable ground whether they are delaying because they are too cowardly to act or too busily engaged at sending out seeds and looking after their political fences.

If the passing of a currency bill will relieve the financial stringency and open up the mills and fill up the dinner pails and close up the soup houses, in the name of humanity, why should it not be passed at this session?

Action on the tariff has been postponed till "after election" and action on currency measures is likely to meet a similar fate. While Congressmen are home giving orders to their henchmen and looking after their interests, private and political, children of honest workmen are suffering from want of food.

A PRESIDENTIAL DICTATORSHIP

The promoters of the Civic Federation bill amending the Sherman Anti-Trust act evidently stand in need of elementary instruction as to the meaning of its main features.

None of them has been able to define the difference between combinations in reasonable and unreasonable restraint of trade according to which corporations and trade unions may be granted or denied Federal registry and immunities as to the past. Everything is left to the "judgment" of such Commissioners of Corporations and Interstate Commerce as may be holding office at the will of the President.

At the hearing of the sub-committee of the House Committee on Judiciary yesterday Prof. J. W. Jenks of Cornell undertook to assure Representative Littlefield that once a corporation secured Federal registration the Commissioner of Corporations could not withdraw its certificate.

Gohn-Egolf

At high noon on Wednesday, April 8, at the home of the bride's parents, Mr. and Mrs. John H. Egolf, of near Schellsburg, their eldest daughter, Miss Elizabeth, was married to Joseph A. Gohn of Lambertsburg, Somerset county, the ceremony being performed by Rev. C. W. Warlick of Mann's Choice. A number of friends and relatives were present to witness the ceremony, among them being A. B. Egolf and wife, of Bedford; Mrs. Lyle Egolf of Schellsburg, Mr. and Mrs. Beckley, Isaiah Hoover and family, Mr. and Mrs. Gohn, parents of the groom; Mrs. George Egolf, and others whose names we did not learn. Many handsome and valuable presents were received. The groom is one of the enterprising young merchants of his town.

In spite of the gloomy weather the occasion was a most enjoyable one, and immediately after the ceremony the guests partook of a most bountiful dinner, to which they all did justice. The bride is a member of the Reformed church at Schellsburg. The young couple have the best wishes and congratulations of their many friends. They will make their home in Lambertsburg.

THE CORN TESTER

Improved Method of Manufacturing—The Selection of Ears.

Schellsburg, April 7, 1908.

In a test made here grains from two ears side by side showed, one 100 per cent. germination and the other nothing. The ears were apparently exactly alike, and it seemed as if something must be wrong with the tester, as both ears were such as would have been selected in the old way for planting. Six grains were taken from each ear and planted in separate pots. The 100 per cent. showed six clean stalks, the other rotted in the ground; showing clearly the impossibility of judging accurately without the test, and showing that the tester is reliable.

Testers made in the way heretofore described are bulky, heavy and dirty; the housewife sometimes objects to having them in the house, where they must be to have proper supply of heat. For a little more money a tester can be made that is perfect, slightly more rapid, light and requires no ground at all. It is the form recommended by the Secretary of Agriculture. One made here is working finely.

Get two yards of cotton (Canton) flannel; it comes 30 inches wide. Fold each separate yard piece so that it is 12x30 (two creases) and sew the edges together. Make a box two inches deep into which a 12x30 glass will just fit nicely. Tack one of the pieces of cotton flannel to the bottom of the box, first ruling it into two inch squares and numbering them with lumberman's chalk. Into these compartments put the grain with the germ side up.

Before loading see that both the flannel in the box and the piece for top-covering are thoroughly moistened. After loading, lay the other piece of flannel; giving three thicknesses of flannel above and below. Then lay the glass on top to keep in the moisture. Lay a piece of string under the glass with the ends out so that you can raise the glass to moisten when necessary. Several moistenings will be necessary; use tepid water and just pour it on the top flannel. Six days completes this test, and without any dirt at all.

After testing is completed and enough 100 per cent. ears laid aside for the planting, with a few over for next year in case of accidents, we are going to grade our corn by inspection of each separate ear, the best ears to be planted in one corner of the field, from which we will select our seed corn this fall.

Of course we have to wait till the corn is growing to get at the "field points," but we can work the strain up somewhat by selection now. Here are some points to be carefully considered at this time:

1. Select all ears that show covered tips and grains running well into the butt.
2. Weigh the ears and select those which show greatest amount of corn as compared to cob.
3. Take the longest grained corn if otherwise desirable.
4. Be sure that the germ cell is long and not too hollow; a short germ cell or a hollow one should be discarded.
5. Test the shelling capacity of the corn by wrapping a piece of paper around the unshelled ear tightly; if the shelled corn fills this paper or overruns the ear is a good one to plant.
6. Regularity of rows and a clean habit of growth are important and should be looked after in selecting seed for future strains.
7. A kernel should not lose its tip in shelling nor bring off with it any part of the cob; it should shell clean.

With these points in view, even if the nearly perfect ears that can be selected from the seed should be but half a dozen, it will pay to plant these selected ears in one corner of the field. The fact that corn has inherited habits is too well proved now to admit of any doubt; and from these best selected ears the best habits and finest growth will result if selection is persisted in. EDUCATORS MEET
(Continued From First Page.)

ored the association with a vocal duet which was very well rendered. Every one was so well pleased with the violin solo rendered by Master Davis earlier in the afternoon that he was requested to play a second selection as the closing number of the afternoon program.

At 7:30 o'clock the members of the association with the invited guests assembled in the town hall to enjoy a most excellent repast. After partaking of this meal to the satisfying of the "inner man," the master of ceremonies, Professor Edwards, began to call for music and speeches. The Quartet sang a selection after which Professor Myers gave a short address in which he admonished the teachers to look on the bright side of the profession as well as on the more serious side.

Professor Potts was next called on and he addressed us on the topic "What seek ye," which proved to be one of his best talks.

The Quartet again rendered several selections after which William Lauder of Riddlesburg gave an address in which he urged on the teachers to prepare themselves to do better work, assuring them that there are better things in store for those teachers who get in line with the spirit of the times. He prophesied that the time is not far distant when teaching will really be a profession and when the teacher will be cared for by the state.

Short addresses were also made by Mr. Tenley and the writer. After several additional selections of music, and a lot of hearty hand-shaking, we retired, feeling that the whole affair was a grand success.

It was voted unanimously to hold similar exercises at the beginning of next term.

For Delegate (State Con.)

I hereby announce myself as a candidate for the Democratic nomination for Delegate to the State Convention, subject to the decision of the Democratic voters of Bedford county.

FRANK E. COLVIN,
Bedford Borough.

For Delegate (State Con.)

I hereby announce myself as a candidate for the Democratic nomination for Delegate to the State Convention, subject to the decision of the Democratic voters of Bedford county.

E. S. DOTY,
Bedford Borough.

Mr. Herr's Candidacy

One of the three candidates for Delegate to the Democratic National Convention from this district, two of whom are to be chosen, is William H. Herr of Altoona. Mr. Herr merits the support of the Democracy of Bedford county. He was born on her soil and is at present the holder of considerable property within her borders. He is an unflinching Democrat who has risen from the ranks to a position of eminence in the business world, and is an extensive employer of labor and a friend of the laboring man. He has never before asked for a similar honor, hence merits the full support of the Democracy of this county.

Dively for National Delegate

There is no doubt that the Democratic party of Blair county would like to see the Hon. A. V. Dively selected as one of the delegates to the national convention at Denver. There is no Democrat that has been as loyal to Mr. Bryan as Mr. Dively. His loyalty and abiding friendship for the Nebraska gentleman have been the most consistent of any Democrat in this country. Besides being a close personal friend of Mr. Bryan, Mr. Dively is well qualified to champion the cause of his choice, because of his knowledge of the prominent statesmen that will be at the Denver gathering and his ability to eloquently and forcibly advocate the nomination of Mr. Bryan. The Times thinks the Democracy would do itself proud if it would honor Mr. Dively by sending him to Denver, and thus do credit to one of the best known and most prominent Democrats in Pennsylvania.—Altoona Times.

LETTER TO G. H. MORTIMER
Bedford, Pa.

Dear Sir: Todd & Downing, contractors and builders, Morgan City, La., have painted Devco for 3 or 4 years. They say it takes less gallons Devco than of any other paint they have used. That means that a job costs less with Devco, not only for paint, for labor as well.

They paint nothing else, Devco exclusively.

They have said nothing about the comparative wear of Devco and others; oversight, may be; perhaps too soon for that. But Devco is the strongest paint; that's why least gallons; best wear, same reason. Least cost and longest time between jobs.

Yours truly

F. W. DEVCOE & CO

Mann's Choice

April 8—Frank Schnably has secured employment at Cumberland. Kie Brown, son of S. B. Brown of near Buffalo Mills, and Miss Jessie E. Whetstone, daughter of Henry Whetstone of this place, were married in Cumberland on Friday last. They arrived here Saturday morning and were given an old-fashioned serenading on Saturday evening by the calistompians, headed by Captains F. M. Suter and Thomas Leonard. We wish the young couple a pleasant and joyful life.

Houston Berry has resigned his position on the Whetstone sawmill. D. W. Hockenberry, candidate for Commissioner, was looking up the voters in and around this place on Monday.

John G. Miller has gone to Hollidaysburg, where he has accepted a position as clerk in a hotel.

The voters of Bedford county will make no mistake on Saturday if they cast their votes for C. W. Blackburn of Point for County Commissioner.

Postmaster H. W. Holler is slowly improving from his illness.

G. H. Gibboney of Everett, who has the contract to put up the new school house, has a force of men tearing down the old buildings and getting ready to scoop out the foundation for the new one.

The masons commenced work on Tuesday on the wall of H. W. Keyser's new store and dwelling on Main street.

John W. Oyler was a Cumberland visitor on Tuesday.

John Kegg has sold his racer and purchased an iron gray steed from H. W. Keyser. John knows a good horse when he sees it but he didn't look sharp at the other one.

H. Harclerode of the Hyndman tannery has taken charge of the shop at this tannery.

Whooping cough has made its appearance in this vicinity.

J. W. Leonard and wife spent Sunday at Hyndman. Jacob Cook had charge of the tannery during Mr. Leonard's absence.

April 9—The supposed coal find is progressing nicely, and if coal is not found something else valuable is likely to appear, which theory is supported by many trained minds. According to the state chemist the stuff that is taken out at present is a shale and would be useful in the manufacture of building brick. A better site than Mann's Choice for such an enterprise could not be desired, as a plentiful supply of sand is nearby.

This is a rich community. Lately gold and silver quartz have been found here on the mountain side by an experienced geologist. Also an unburnable calcium carbonate rock, lead and zinc stone, as well as a refining sand stone.

There is an opening here for a drug store, a jeweler and watch repairer, shoemaker and tinsmith.

In the winter we overheard a conversation in Bedford in regard to the feasibility of a banking institution in Mann's Choice. It is likely that if this matter is not looked into in time by local people that outsiders will obligingly consent to place vaults here. Mann's Choice is a good point for a bank, for the reasons that it is the distributing point for a large portion of the county, and that this whole population would do their banking here, rather than take the trouble of either taking or sending it elsewhere. Let's have a bank!

W. H. Suter of Everett has installed new gasoline lights in the hotel, Phalanx Press, C. M. Cuppett's and John P. Cuppett's stores.

RECEPTION TO PASTOR

Rev. Keboch and Wife Pleasantly Surprised—Sumptuous Dinner.

A large number of the members of Wolfburg and Mt. Smith churches and their friends entered the Methodist parsonage Monday afternoon, while Rev. and Mrs. Keboch were absent and made preparations for a reception. Everybody came with baskets and boxes loaded with good things to eat. When the pastor and his wife returned, in company with Mr. and Mrs. Todd who had purposely planned to take them away for the afternoon, they were surprised to find their many friends in possession of the parsonage but extended to them a very warm welcome. Rev. Keboch expressed thanks for the kindness of the people and said "We are glad to be with you for another year."

The excellent dinner was enjoyed by all and the evening was spent in social chaffs and wholesome fun and jokes, everybody having a good time. Many provisions were donated; also horse feed, for which the pastor expressed thanks.

Wolfburg circuit has enjoyed three years of prosperity. There have been over 145 conversions and 36 are on probation at the present time. The total membership of the five churches is 220 full members. This year the people gave \$171 to the missionary cause; this is the largest in the history of the circuit. All other apportionments for benevolent collections, we are told, were met in full. We all hope to make this year the greatest, in every way, of the four. Let us do all we can.

information, knowing every incident that ever occurred in the history of Rome, ancient, mediaeval and modern, and every foolish fancy or superstition.

The Sacred Stairway

We were scarcely inside the building when we found ourselves at the foot of a flight of stairs, a large company of sight-seers looking on, while a larger company was ascending the steps—would you believe it?—on their knees. And what was this? The Santa Scala, we were informed, the sacred stairway which Queen Helena secured from the palace of Pontius Pilate in Jerusalem, and which is sacred because it was trod by Jesus in the persecutions preliminary to the crucifixion. It is very steep, and I do not believe I ever saw anywhere a more peculiar spectacle than that exhibited by those who humbly, reverently, laboriously worked their way up the twenty-eight steps. There were old men and young men, old women and maidens, some going at a fair gait, but most of them halting at every step either to rub their joints, or to pray, or to kiss the steps pressed by the Savior's holy feet. One elderly man was fudging on Providence by hoisting himself over the twenty-eight difficult rapids with a cane. And while we looked, a detachment of boys in red uniform robes came in and at once fell to their knees and began to climb, stopping four times en route to bow and bend in a concert of prayer; they made rapid speed, passing all others. One old lady moved so slowly that I wonder if she has yet reached the top, and her efforts were so painful that I could hear her bones creak in their rusty sockets.

The original steps are of marble and these are never touched by feet nor hands, for they are covered with a false wooden casing; and it is easy to believe Maccaroni's statement that the steps wear out and have to be replaced every five years. There are two holes, however, in each wooden step through which the original marble may be seen, and it is the custom of those ascending to stop frequently and press their eye against the apertures. Time and again we saw the climbers take an umbrella, cane, or stick and press it through a hole and fervently kiss the medium during its contact with the sacred relic, or rub handkerchiefs or beads against it to sanctify them. S. J. Thomas.

The Letter S

Did you ever think what a strange letter S is? It is a serpent in disguise. Listen—you can hear it hiss. It gives possession and multiplies indefinitely by its touch. It changes a tree into trees and a horse into horses. Sometimes it is spiteful and will turn a pet into a pest, a pear into a spear, laughter into slaughter and a word into a sword, and it will make a hot shot any old time. Farmers have to watch it very closely. It will make scorn of his corn and reduce every peck to a speck.

Bilious? Feel heavy after dinner? Tongue coated? Bitter taste? Complexion sallow? Liver needs waking up. Doan's Regulets cure bilious attacks. 25 cents at any drug store.

A RACE FOR NEW TRADE

Is Now Going on at This Store

We find that we need more new customers and in order to get new trade we have sacrificed a good part of our profits to show that we mean just what we say. The prices on our whole stock have been adjusted in such shape that anybody can see at a glance what a saving awaits them here.

Our Clothes all Bear a New Price Tag.

Our clothes were always cheaper and better than other stores, yet this season you'll find the saving even greater than before. We want everybody's trade and if everybody knew us and would try us there would hardly be anything left for other stores to do. Our business has been growing month by month and we see new faces every day of the week—good evidence of our way of doing business.

See Our Men's Suits at \$10.00.

You will say that \$15 ought to be the price. All the new shades in Tan, Brown and Gray, besides Blue and Black. More style cannot be put into a suit at any price.

BOYS' SUITS

For little fellows—Blouse Suits in Blue Serge and Brown Checks and Stripes at \$3.00—for the same kind you have been in the habit of paying \$5.00; Larger Boys' Suits, \$2.00 to \$3.00.

See our window display. Come and look over our whole stock. Our prices are always within reach of all. At any rate, call and see what our goods are like and learn how much cheaper and how much better goods you can get at this store.
